IRS FILING STATUSES

Single. Normally, this status is for taxpayers who are unmarried, divorced or legally separated under a divorce or separate maintenance decree governed by state law.

Married filing jointly. If a taxpayer is married, they can file a joint tax return with their spouse. If one spouse died in 2021, the surviving spouse can use married filing jointly as their filing status for 2021 if they otherwise qualify to use that status.

Married filing separately. Married couples can choose to file separate tax returns. This may benefit taxpayers who want to be responsible only for their own tax or if it results in less tax than filing a joint return.

Head of household. Unmarried taxpayers may be able to file using this status, but special rules apply. For example, the taxpayer must have paid more than half the cost of keeping up a home for themselves and a qualifying person living in the home for half the year.

Qualifying widow or widower with dependent child. This status may apply to a taxpayer filing a 2021 tax return if their spouse died in 2019 or 2020, and they didn't remarry before the end of 2021 and have a dependent child. Other conditions also apply. **This filing status follows Married filing jointly**

A **benefit period** begins the day you're admitted as an inpatient in a hospital or skilled nursing facility. The benefit period ends when you haven't gotten any inpatient hospital care (or skilled care in a skilled nursing facility) for 60 days in a row. If you go into a hospital or a skilled nursing facility after one benefit period has ended, a new benefit period begins. You must pay the inpatient hospital deductible for each benefit period. There's no limit to the number of benefit periods.

* Plans F and G also offer a high-deductible plan in some states. With this option, you must pay for Medicare-covered costs (coinsurance, copayments, and deductibles) up to the deductible amount of \$2,700 in 2023 before your policy pays anything. (You can't buy Plans C and F if you were new to Medicare on or after January 1, 2020. See previous page for more information.)

** For Plans K and L, after you meet your out-of-pocket yearly limit and your yearly Part B deductible (\$226 in 2023), the Medigap plan pays 100% of covered services for the rest of the calendar year.

***Plan N pays 100% of the Part B coinsurance. You must pay a copayment of up to \$20 for some office visits and up to a \$50 copayment for emergency room

The Marketplace sends Form 1095-A to taxpayer early in the year if someone in the household had a Marketplace health plan. The 1095-A will have the premium cost of the second lowest silver plan for their zip code. Applying the taxpayers applicable premium percentage to their MAGI results in the amount they are expected to pay for their health insurance plan. This amount is then subtracted from the cost of the second lowest silver plan for their zip code. The resulting amount (if positive) is the amount of their premium tax credit. **Note:** Taxpayers using the Married Filing Separately filing status are not eligible for the Premium Tax Credit.
